

# AIR QUALITY MONITOR – Aura

## Features

**Aura N2** - A wall mount Indoor Air Quality Monitor compact design. Fits well in most interiors of home or office. Capture 6 critical parameters which effects Indoor Air Quality. Built in optical sensor to adjust display brightness to create comfortable sleeping environment at home High precision PM2.5 laser sensors to measurement of air pollutants, Wi-Fi enabled product to capture real time data.

## Applications

Home	Offices	Hotels
Restaurant	Schools	Hospitals
Airports	Theatre	

## Construction

<b>Model No.</b>	Aura
<b>Working Temperature</b>	-10~50°C
<b>Working Humidity</b>	20% RH ~ 95% RH
<b>Input Power</b>	5V DC 1A
<b>Monitor Screen</b>	Round Display with Gravity Sensor to change Display
<b>Charging Interface</b>	Micro USB
<b>Battery</b>	Li-ion 1600mAh
<b>Data Interface (Connectivity)</b>	Wi-Fi 2.4 Ghz
<b>Dimension</b>	118 x62 x 23mm
<b>Weight</b>	150 grams ( incl. Battery)
<b>Type of Sensor</b>	<b>Specification</b>
PM2.5/PM10 /PM1	0-999 ug/m3 ±10%
Total VOC	0.000-9.999mg/m3
CO2	0~5000 ppm ±(50ppm+5%)
Temperature	0 ~ 50°C ± 1°C
Humidity	20~95% RH
