

# AIR QUALITY MONITOR – SENTINEL

## Features

**Sentinel D1** - A wall mount Indoor Air Quality Monitor compact design. Fits well in most interiors of home or office. Capture 6 critical parameters which effects Indoor Air Quality. High precision PM2.5 laser sensors and non divergent CO2 infrared sensor for accurate measurement of air pollutants . Wi-Fi enabled product to capture real time data.

## Applications

Home	Offices	Hotels
Restaurant	Schools	Hospitals
Airports	Theatre	

Construction	
Model No.	Sentinel – D1
Working Temperature	-10~50°C
Working Humidity	15% RH ~ 90% RH
Input Power	5V DC 1A
Monitor Screen	2.8" Color TFT
Charging Interface	Micro USB
Battery	Li-ion 1600mAh
Data Interface (Connectivity)	Wi-Fi 2.4 Ghz
Dimension	89 x66 x 37mm
Weight	120 grams ( incl. Battery)
Type of Sensor	Specification
PM2.5/PM1.0/PM10	0-999 ug/m3 ±10%
Total VOC	0.000-9.999mg/m3
CO2	0~5000 ppm ±(50ppm+5%)
